To Whom It May Concern,

Subject: Recommendation for Industrial Visit by AIUB Students

I am writing to recommend the students of the Department of Computer Science, American International University-Bangladesh (AIUB), for an industrial visit to your esteemed company. As part of their Software Requirement Engineering course, these students are required to gain practical exposure to real-world software engineering practices, specifically related to how companies handle customer requirements, documentation, and analyst's work.

We believe that an industrial tour of your company would provide them with invaluable experience in understanding how professional analysts work, interact with clients, and manage projects. This visit will significantly contribute to their learning, helping them bridge the gap between academic concepts and practical implementation.

We kindly request your support in accommodating our students for this visit and providing them with the opportunity to learn from your team of experts. The experience they gain from your organization will be instrumental in their professional development.

Please feel free to contact me directly if you have any further questions or require additional information.

Thank you for your consideration.

Sincerely,

[Teacher's Name]

[Teacher's Designation]

American International University-Bangladesh (AIUB)
